

**TOWN OF QUEENSTOWN
BULK COLLECTION REGULATIONS
COLLECTION EVERY MONDAY**

1. Should Monday be a major holiday, collection will be on Tuesday of that week.
2. Place items street side for collection no earlier than 2 days before collection day and no later than 6 AM on collection day. If you place items out after that time, they may not get collected. Should you miss collection, items will not be collected until the following week. Remember to remove any items not collected from the street.
3. Occasionally the volume of bulk placed out town wide may require more than one day collection. Allow us 3 days to have all items removed.
4. Small “junk” items must be bagged.
5. Brush, metals, and lumber (small amounts, see #8), must be separated from each other and all other items. Form separate piles each for brush, metals, and lumber.
6. Yard waste (twigs, grass clippings, leaves, etc.) must be bagged. No wheelbarrows, baskets, or trash cans full of loose yard waste will be collected. Do not mix anything else in with these items (no paper, plastic, etc. – NOTHING!)
7. Tree limbs, branches, lumber, etc. must be cut to 5’ or less in length and 6” or less in diameter. Large tree remains more than 5’ in length and 6” in diameter will not be collected by the Town and must be disposed of by you.
8. You must provide your own dumpster for construction debris or haul it away. Neither the Town, nor the trash collector will collect construction debris.
9. Appliances & furniture will be collected. REMOVE DOORS FROM ALL APPLIANCES.
10. No cardboard will be collected during bulk collection. It will be collected with recyclable items. Please recycle as much as possible!
11. No tires or vehicle batteries will be collected.
12. No motor oil will be collected by the Town or trash collector. All motor oil must be disposed of properly. Call the Queen Anne’s County Dept. of Public Works at 410-758-0925 with questions regarding proper disposal.
13. No oil based paint (cans or buckets) will be collected. Latex paint is accepted provided sand or kitty litter is mixed into any remaining paint in the container and allowed to dry.
14. Contact the Town Office if you anticipate having large amounts of bulk items for collection prior to placing items out.

**PLEASE FOLLOW THESE GUIDELINES! SHOULD ANY OF THE
REGULATIONS NOT BE FOLLOWED, THE TOWN WILL NOT COLLECT
YOUR ITEMS.**

**As the Town is required to follow certain regulations imposed by the landfills of
Queen Anne’s County, your cooperation is greatly appreciated!
